

CQI training certificates in Quality Management

We have designed our syllabus to support an individual's development needs at all stages of their career. In order to provide further recognition to delegates, we now offer two new training awards:

Practitioner Certificate in Quality Management

Professional Certificate in Quality Management.

Delegates must complete the relevant courses in quality at either Practitioner or Professional level in order to claim their certificate.

Why you should offer the CQI training certificates

If you offer the CQI training certificates, you can:

- Be recognised for your expertise in offering certificates that meet the highest professional standards
- Provide delegates with further recognition of their achievements
- Expand your product portfolio and enter new markets, increasing your bottom line
- Retain your delegates for more courses
- Continue to attract a wide audience of business professionals.

When delegates have completed the relevant courses, they apply directly to the CQI to claim for the training certificate. Once we verify them, we then issue the relevant certificate directly to the delegate.

It does not mean any extra work or cost for you – you just have to deliver the training as usual.

You can however, continue to deliver any of the quality courses individually.

CQI training certificate requirements

► Practitioner Certificate in Quality Management

The Practitioner Certificate in Quality Management is aimed at those already working in a quality role who wish to develop their knowledge and skills. It meets the knowledge requirements for membership of the CQI at Practitioner level.

The Practitioner Certificate in Quality Management is awarded by the CQI on successful completion of the following courses:

- PT202:** Managing Process Performance
- PT203:** Managing Management Systems
- PT204:** Managing Change and Continual Improvement
- PT205:** Managing Problem Solving
- PT206:** Managing Supply Chains
- PT207:** Managing Customer Excellence
- PT208:** Managing Quality Planning
- PT209:** Managing and Influencing Stakeholders

► Professional Certificate in Quality Management

The Professional Certificate in Quality Management is aimed at experienced practitioners looking to advance to a strategic level and aspiring to become a Chartered Quality Professional. It meets the knowledge requirements for membership of the CQI at Chartered Quality Professional level.

The Professional Certificate in Quality Management is awarded by the CQI on successful completion of the following courses:

- PR302:** Leading Enterprise Performance Measurement
- PR303:** Leading Quality Strategy and Planning
- PR304:** Leading Business Process Excellence
- PR305:** Leading Supply Chain Assurance
- PR306:** Leading Strategic Change and Improvement
- PR307:** Leading Enterprise Risk Management

How long does it take?

Delegates must complete all the required courses for each of the above levels, including successfully passing the relevant exams within three years (this time limit begins from day one of starting the first course).

How does it work?

Delegate successfully completes required courses

Approved Training Partner issues course certificates

Delegate submits course certificates to the CQI

The CQI verifies application and issues training certificate

Any questions?

Find all Practitioner and Professional course specifications on the ATP portal, or for more information about the CQI training certificates, please contact us at training@quality.org
